

# Attention High School STEM Teachers!

Join us for the “Chemistry and Design Thinking in High School Classroom” workshop at the American Chemical Society Midwest Regional Meetings

Saturday October 22, 2022 from 8:00am –12:00pm  
W228 and W328 Chemistry Building, University of Iowa  
Sign up when you register for ACS MWRM

## This workshop will focus on:

- Implementing Next Generation Science Standards in chemistry classrooms
- Conversations about using phenomena to guide learning and facilitating student led discussions
- Integrating the Science and Engineering Practices
- Participating in the Design Thinking process of innovation used in chemistry-based industries and research labs to develop solutions to real world problems

## What you will get from this workshop:

- Walk away with an activity that could be used in your own classroom
- Educators may qualify for 1 graduate credit (\$149) through the University of Iowa OR 1 AEA license renewal credit (\$60) with the addition of curriculum planning and implementation in their own classroom
